

The Acoustic Wood Designs Curved Veneer Panel Systems offers a visually attractive and easily installed wood ceiling or wall system. Wood ceiling and wall systems can offer an un-paralleled level of warmth and richness to any architectural space. Non perforated panels provide excellent acoustic reflectance properties, while adding perforations can provide acoustic absorbency.

## KEY FEATURES

- Cost effective and functional system
- Suspends using standard aircraft wire systems
- Custom sizes and shapes as needed
- Face perforations available
- Wide range of wood veneer finishes on 3/4" particle board core
- Interior or exterior finishes available
- Range of edge conditions available for floating ceilings conditions

## STANDARD WOOD SPECIE

**ASH**

**CHERRY**

**MAPLE**

**BIRCH**

**RED OAK**

**WHITE OAK**

**Note: The full range of specie and veneer cuts is available**

### **ACOUSTICAL PERFORMANCE**

**AWD Curved Veneer Panel Systems can be perforated to achieve a variety of desired acoustical properties.**

### **FIRE RETARDANCY**

**AWD Curved Veneer Panel Systems can be manufactured to achieve ASTM E84 Class 1 or Class A retardancy.**

### **SUSTAINABILITY**

**AWD Curved Panel Veneer Ceiling and Wall systems are manufactured responsibly utilizing sustainable raw materials.**
