ACOUSTICAL PERFORMANCE

AWD Pro Series Grille system acoustical performance is dependent upon the properties of the material above or behind the grille. The wood grilles themselves are considered to be acoustically transparent.

FIRE RETARDANCY

AWD Pro Series Grille system can be manufactured to achieve ASTM E-84 Class 1 or Class A retardancy.

COMPLIANCE WITH SEISMIC CODES

AWD Pro Series Grille ceiling, when installed onto a seismic code compliant suspension grid with screw attachment through the wood backer to the grid will satisfy seismic code requirements. Consult with local codes or licensed engineer for any additional requirements.

SUSTAINABILITY

AWD Pro Series Grille systems are manufactured responsibly utilizing sustainable raw materials.
